Ronnie Mortvedt

I hope you dont take what I say too serious = I think of a war game sort of a war reading game. O.K. stop reading right about here. Dont read the rest if you stop. Don't want to know what I think about you when you're not supposed to.

Love, Dina

Ronnie
I know you expect me to tell you to have a good summer and I'll see you next year, but I'm not going to. I'll "always be Although I just did. I'm glad that I'm your eyes" and special in your really not that much of a bother. I just don't get any strange ideas. you're a real sweet guy and you have a good personality. maybe we can go skiing next year, but I can't ski very good. Friends always

Love, Katy

Hi Ronnie (sounds older)
It's been fun
talking in French class
when we weren't supposed
to. I just love being a rebel!
Say "Hi" to Baby Roger for me.
Do you really think I look like a
farmer's daughter?

See ya around,
Love,
Kimberley L.

Dear Ronnie,

I'm glad I met you this year. You're a very interesting person. You have a good personality. Hope you have a great summer.

Always,
Darlene R.

P.S. I hope we get another Thanksgiving Assembly next year.

To Ronnie +
A sweet + nice guy who
makes me feel special.
I hope to see you
in the future
Have a great school year
*Stay in Touch*
Friendz Always

Dear Ronnie,

It was nice having you in French this year. Too bad we couldn't get to act together. Maybe someday, who knows. I'm glad you got your little car. Remember our bet in December? Well like I said maybe we'll get it right? You're a nice, athletic stud and I hope it takes you far in life. I wish you every success and happiness in the world.

P.S. When you get bored, give me a ring. OK.

## Gauchos get into action with spirit rally

A crowd of roaring students came to see their mighty gauchos in action. A spirit rally is held annually at the beginning of the school year to introduce all school athletic teams and to introduce the football teams. While the band played the song, "Centerfold", by the J. Geils Band, small flags did their rhythmic routine. Cheering, clapping, and stomping feet added pizazze to the rest of the spiriters. Also, play production did a skit. The spirit rally got all of the students into action.

# Pumps and Pennyloafers!

## Trends of today emerge from the past

Fashions over the years have come and gone, but not very many of them really make a great comeback.

First there was the sudden splurge and exit of the glamorous Joan Crawford shoulder pad trademark and suave Tyrone Power charm. The term was GQ for good quality in the later 1970's and early 1980's.

This year's tag comes from the turn of the 1950's and early 1960's clock. Slapping Reaganomics in the face — many of the clothes these rock-a-billy's and Preppy's (their adoptive name) wear come from thrift shops.

The preps "just got to have" polo shirts, letterman and angora sweaters, fish nets, Levi's, pennyloafers, tight-lined skirts, taffeta dresses, and pumps. Very cheesecake indeed.

And the rock-a-billy's — That's another story: "totally" — bowling shirts, black tassel loafers, cardigan sweaters, argyle socks, wing-tip shoes, tuxedos, and the latest James Dean t-shirts they picked up at a specialty shop. Good ol' Jimmy is probably dancing in his grave.

Good God only knows what students will come up with next. Maybe the 1920's prohibition era of flappers, long beads, and spats. Or even the southern belle and Victorian style of dress. You never know!

1. **Samantha McMurray** doesn't have enough feet to wear all of her favorite shoes.

# student life stu

Where can you find sports, academics, bands, entertainment, fast cars, and lots of friendly people? Where else but on campus!!

Although the first weeks of school seemed endless for some, before we knew it we were taking our finals.

As the months passed, Narbonne proved to be more than just a school. In fact, many of us actually spent more time on campus than anywhere else.

Among our many fine sports teams, numerous clubs and organizations, pep units, and bands, there was always something for everyone. For the many who participated, a deep sense of achievement was accomplished, as the time flew by!

2,242 Gauchos can't be wrong, **The Bonne** has it all!

# Homecoming 1982

## "A Night to Remember"

1

Cheers and excitement rose to a roaring pitch, as the game unfolded between Narbonne and Bell at the Gardena Stadium on October 22nd. Bell was defeated 29 to 6 in this spectacular game. The athletes played an exciting game with much effort and enthusiasm.

Eyes were filled with excitement as half-time rolled around. The entertainment was put on by such groups as flags, drill team, pep club, cheerleaders, and marching band, as well as the introduction of the 1982-'83 Homecoming court.

October 23, 1982, the Homecoming dance was held at the Long Beach Hyatt Hotel, from eight until midnight. The music was played by, D.J. **John Platis.** All night long, as he played the favorites from Rock-a-billy to Soul, people danced the night away!

Our gratitude should be expressed to the members of **Boys' League** led by President **Andre Michaud** for organizing the successful activities during Homecoming half-time. Likewise, appreciation goes to the members of **Girls' League,** led by President **Amy Jones** for coordinating such a magnificent Homecoming dance. It truly was, **"A Night to Remember."**

1. **Victor Afner** and **Gina Matter** dance the night away.

# Fun food and festivities

## Lomita Jubilee — A community carnival

And they're off! It was the start of the festivities of the Lomita Jubilee Birthday Celebration.

Starting off at Lomita City Hall and ending at Lomita park, it was non-stop fun. There was something for everybody as booths were set up and first-rate entertainment was provided.

Senior citizens, students, and residents alike participated in a balloon break and dunk booth, teddy bear and bean bag tosses, coin pitches, bowling games, refreshment stands etc . . .

The Jubilee was dedicated to the late great Olympian Jim Thorpe who was a resident of Lomita.

All in all, it was a blast and proved to be a great success.

this speech page for me? Gosh, this year has been unique Ronnie! And having you on my squad and being part of your life has not made it any easier for me. Although I must admit, those times are memorable. Let me just say that you will be the only person ever in this world who can make me laugh & cry in the same breath. I know you must think I'm not saying that but really, I'm not. I'm not. I'm not saying that someone special 'cause you are. You are special 'cause you are really are! I see those times, whether I needed you or not (see page 257)

# Dawning of a new spirit

5

Participation is the key thought behind pep rallies. We the students support the athletes; at spirit rallies, pep rallies and especially the games.

Pep rallies are hosted by the cheerleaders, marching units, and pep units. These rallies are given for the athletes who participate in school sports for their own sense of competition and for our entertainment.

Spirit is very important to our athletes. It gives them the desire and ability to go that extra yard and to give it their all in whatever sport they are tackling.

6

1. **Wirter Mangram** and **Sal Fregoso** are shown goofing off.
2. **Keva Copeland** shows a sudden burst of joy at the thought of victory.
3. **Keisha Powell** and **Tawny Blaylock** give it all the spirit they have.
4. **Don Ramirez, Barbara Hetner,** and **George Muniz** along with the rest of the band give a great demonstration of the bands' ability.
5. Drill Team leader, **Terrie Clark,** demands attention from her squad.
6. Small Flags give an energetic display in the circle area.

# Play production Live on stage!

Acting their best, Play Production showed their talent through the many plays they put on throughout the year.

Some of the plays shown were; **The Necklace** — a twisted plot about a woman who borrows a diamond necklace, loses it, and ends up paying $30,000 francs for 10 years. As the story comes to an end, it is revealed that the necklace only cost $500 francs.

Another play shown was **The Gift of The Magi** — a story about the sharing of a young couples' Christmas. The woman cuts her long beautiful hair to buy her husband a gold watch chain. Ironically, he sells his watch to buy combs for her hair.

**To Burn a Witch** was another interesting play about two innocent girls who are accused of practicing witchcraft and believing in the devil. One of the girls confesses to save her life. The other girl was burned at the stake because she refused to betray her god.

Many thanks goes to **Ms. Mirich** sponsor, for putting on various plays and for producing such well organized actors and actresses.

# Rough & tough powder puff

Powder Puff, which was coordinated by **Lisa Rowe** and **James Bonoan**, Directors of Boys and Girls Athletics, was a big success.

The mighty Seniors played their hearts out but were defeated by the even mightier All-Stars for the first time in Powder Puff history. Even though the seniors were the first to gain possession of the ball, the all-stars were the first to score. Eventually the seniors did score but it was too late in the game to pull off a victory. The final score was 8-6 All-Stars. Half-time activities found **Randy Croyts** the new Mr. Irrestible. Even though they were defeated, the seniors held their heads up. After all, the game was all in fun!

## Artists get students into shape

Artists are coming! Artists are coming! In a move by Narbonne's administration to help make this school a more cultured place to learn in, a playwright, **Erwin Washington,** and a professional dancer, **Crystal Londress,** directed classes on their professions.

The artists are part of a South Bay Alliance which helps educate students on different basics of the Fine Arts.

**Erwin Washington,** the playwright, has a successful past with television. He wrote and sold scripts for "White Shadow", "The Jeffersons", and has a screenplay up for option. He also wrote plays for UCLA's Theatre Company.

Crystal Londress has toured extensively in many dance companies throughout her career. She is a professional in every sense of the word.

# Christmas basket drive

## Sharing through the holidays

Narbonne's 30th annual Christmas Basket Drive, which was held December 6 to December 16, was a huge success due to the community and student body participation. In combining efforts and making 60 needy families have a Merry Christmas, clothing, toys, and food were donated. Money that was collected was used to buy certificates for perishables and many homerooms bought Christmas trees.

This project, which is just one of the many sponsored by Key Club, draws more and more community involvement every year. **Lawrence Tonomura,** Key Club President, expressed his thanks to those involved for their generosity and hard work in making these families have a great holiday season.

6. Having Christmas spirit, **Hector Sanchez** gives up his free time to aid families in need.

# Senior parents reception

## "This one's for you . . ."

Entertaining dances, songs, and skits were performed at the Senior Parents Reception on December 8, for the class of '83-Genesis. **Denise Nishimura,** Senior Class President, opened the show with a warm welcome, followed by a greeting from our principal, **Dr. Richard Browning.** The Senior Class Officers were introduced at this time; **Melissa Hock, Mary Norris,** and **Kelly Testerman.**

Following the show was a gathering in the M.P.R. for the seniors and their parents. Everyone enjoyed refreshments and socializing for the remainder of the reception. The Senior Parents Reception was put together by the class of '83 and the senior sponsor, **Mrs. Just.**

# Let's get physical!

## America goes health crazy!

America goes health conscious: Jogging, aerobics, body building, and plenty of vitamins are part of a new kick to get that body together!

One of the hottest products in clothes stores these days have been short outfits and sweat suits. It seems people just can't shed that extra pound. But whether it is to lose weight or just keep firm and healthy, fitness is in!

Health food stores and restaurants are doing much better business than the Fatburger around the corner. A careful count of calories are being taken as people become more conscious of what they put into their bodies. A clean system is the best way to a clean life.

People are really beginning to care about their appearance. And if you look better, you feel good!

Our Faculty at Narbonne is special. We've got people who do everything from helping us keep our campus sparkling clean, to those who help us plan our future.

The Underclassmen are equally special. We've got the Juniors, who just can't wait to take over the 12th grade and start planning their own activities. The Sophomores have just spent their first year at Narbonne and have discovered all the great things here, from our many clubs and activities, to picking our own classes. They finally found out what everyone else already knows — Narbonne really is the place!!

## Young at art

Although he has never taken any art classes, **Damien Jordan** is a highly talented artist. By the age of three, he was drawing comic strip characters and at age five he was enrolled in a summer ceramics class in Rochester, New York.

Damien's drawings, which are greatly admired by family and friends, can now be seen by everyone since several drawings have been printed in the Green and Gold.

Damien says his future plans are leaning towards the medical field but whatever he chooses to do he'll always have the gift of art.

## P.T.S.A. — Just yell help!

One of the most important groups here at Narbonne is the P.T.S.A. Not only are they active with teacher and student communications, but are a stable part of the on-going community.

The most important things they have done were to establish 100% teacher membership and to set-up a drug abuse committee. Their ambition is to wipe out drugs on campus!

The year would never be complete if we didn't have them to help with the United Crusade Drive, Pre-registration, and the Christmas food drive. They also give special student recognition awards at the end of the year. The awards are presented to those students who are active on campus and have done things to better the community.

As **Dotti Hattori,** President of the P.T.S.A., says, "We are always here to help. All anyone has to do is yell!"

## E.A.R.T.H. W.A.T.C.H.ER!

How would you like to have the opportunity to study oceanography and go around the world? One junior, **Lynn Masson,** got that chance from an organization called E.A.R.T.H.W.A.T.C.H. To become a member of the E.A.R.T.H.W.A.T.C.H. organization, she had to go through a series of interviews.

With no luxuries or modern conveniences, Lynn spent the summer of 1981 in Maine, sharing a tent with other members of the group. The purpose of this project was to find out the migration patterns of men during the ice age. Lynn said, "It was an adventure!"

## Interesting Software . . .

. . . is the name of a year-old company owned and developed by **Corey Ostman** and three other partners. When two computers came out (the Vic 20 & the Commadore 64) they had no additional software brain for additional programs so Corey and a friend wrote programs for them and sold them! Tronix markets and sells these programs to other computer companies and department stores. "Computer Corey!"

# We get it together

At the sound of the bell they're off! Who? A group of dedicated people, the hard working clerical staff at Narbonne High. Their main function is to keep the school well organized, and that they do. The people on this staff are: security agents who watch over us, office workers who handle reams of paperwork, cafeteria staff who keep us nourished, and the librarian who keeps us reading. Without these people Narbonne just wouldn't be the same high caliber of school that it is.

# Summing it up

## The concepts of mathematics

With courses ranging from Basic Math to Calculus, the Math Department covers quite a large subject variety. Math is essential in all our lives, and is the basis for most occupations. Math skills can lead to various careers such as Architecture, Medicine, Computer Technology, and possibly Space Exploration!

With the computer craze in full swing, more students are enthusiastic about joining computer programming classes, and many parents are pleased with the knowledge their children obtain from this particular course.

There was a minor change in the Math Department staff; new teachers were added while some were transferred to other schools. Thanks to the Math Department, Narbonne has the highest S.A.T. scores in the district!

## English department

Ever wonder if all those hours spent in English class were wasted? If this is what most of you think while sitting in class, here are some surprising facts: First of all, the English department is the largest of any other. Secondly, as everyone knows, certain English classes and credits are needed to graduate. And third, there are more students enrolled in literary classes than any other subject. So just remember, if you didn't have English you wouldn't be able to read this, or yu mite bee speling lik thes!

## Science teachers strive for excellence

Each year students ask various questions about the science they are taking. Some questions they might ask are: why gravity is the central force in our universe, how the human body functions, or why the stars move as they do.

As every semester rolls around, it brings in new students as well as a new curiosity to learn about the many fields of science.

Our teachers are faced with the task of teaching these students and preparing those who plan to major in that field. Some of the subjects taught are: Biology, Physics, Chemistry, Geology, and Astronomy.

# Preparing for the future

## Home Economics/Business Education/Work Experience

**Home Economics** has much more to offer than meets the eye. Students learn more than just cooking and sewing, they learn about fashion designing, interior decorating, parenting, and independent living. Even if one is not planning a career as a chef or a fashion consultant, taking these courses will help the student later on in life.

Home Economics is taught by two teachers; **Mrs. Campbell** teaches the cooking classes, and **Mrs. Cragin** teaches all the classes pertaining to sewing.

Over the years the fields of **Business** and of **Business Management** have become more and more demanding occupations. Students realize the opportunities that await them in the world of business, and as a result, an increasing number of high school students are enrolling in business courses such as **Business Organization** and **Finance, Accounting, Typing,** and **Shorthand.** The teachers in charge of teaching these courses are **Mr. Haley, Mr. Castro, Mrs. Smith, Mrs. Tundo,** and **Mrs. Jones.**

**Work Experience** is not like any other class here at Narbonne. In fact it is not really a class at all. Students who wish to find a paying job while at the same time receive school credits for it, may do so by enrolling in Work Experience, which is organized by **Mr. Mann.** This class offers students the chance to know what it is like to maintain a steady job, to develop a sense of responsibility, and to become finally financially independent. Work Experience is truly an experience.

## The key to good health

Good health is the most precious gift life can give us. The atmosphere in the health department and nursing classes is one of closeness between students and teachers. Students feel free to ask questions pertaining to life in general.

The teachers always welcome any questions and are very open and honest with their answers. Students who are particularly interested in health and medicine take advantage of the nursing program here at Narbonne. Taking an interest in your health can be very rewarding.

# A place to study

Have you ever had a test to cram for and nothing to study from? That means its definitely time to hit the faithful school library! From time to time one may visit the library to do a report, look up a topic to read, or just to get a little time to oneself. However the library has a lot more behind the scenes. Believe it or not there are 14,000 books to choose from and 1,500 education information kits like films, transparencies and cassettes. There is also a large selection of records ranging from classical, to jazz, to popular, to Christmas music. The school librarian **Mrs. Marinella** and her aid **Mrs. Grimm** are the ones who keep track of all of this and keep it in order. In addition, all the valuable books and materials in the library are now under protection since the installment of the book detection system which was completed in 1983.

**M**ainstreaming is an important aspect of **Narbonne**. This is a program that was set up approximately 20 years ago to aid the physically and emotionally handicapped. The program offers students English as a second language, Resource Specialist, Emotionally handicapped, and Visually handicapped classes. These four programs enable the main streaming students to take basic classes and receive special attention from small classes with special education teachers.

Many students at Narbonne wonder why they have to take P.E. in high school. For one, P.E. is required for two semesters in order to graduate. For another, it is as **Miss Kordones** says, "part of learning and education." Regular P.E. is not the only type of physical activity offered. Tennis, volleyball, archery, and badminton are some activities available for both guys and girls. Weight training is popular among guys, while body contouring is among girls.

# Experience starts here

Where do our students get experience in mechanics, architecture, and professional woodworking? Our industrial arts department gives training in all these fields; plus more, boasting an auto shop, a metal shop, a wood shop, graphics arts-print shop and also an architectural drafting course.

All of our shop classes can be, and usually are, majored in. Print shop meets much of the schools' printing needs, wood shop gives experience in woodworking, auto shop has turned out many fine mechanics, and metal shop gives experience for future machine operators. Our fine shop classes are only surpassed by our even finer shop teachers.

# Creative minds at work

## Music, Art, and Foreign Language

Our music department provides musical entertainment at our football games, Christmas programs, and other school activities. **Mrs. Herman,** music instructor, is very dedicated because she spends countless hours practicing with her band and choir. Although the music department at this school is quite small, it is large in talent.

Our school's art department has highly gifted teachers. **Mr. Blinn** teaches Art History, **Mr. Talley** teaches Photography, **Mr. Henry** teaches Jewelry, and **Mrs. Yoshii** teaches Ceramics. This gives the students a wide variety of classes to choose from.

Spanish and French are the two foreign languages taught here at Narbonne. They are taught by **Mr. Sierra** who teaches Spanish, **Mrs. Barton** who also teaches Spanish, and **Mrs. Marissael** who teaches French. This foreign language department offers very educational as well as interesting courses. All these departments expose students to the finer things in life.

# Studying the world

## Social studies wide and varied

The social studies department has something for everyone.

Most students appreciate a good social studies course. Whether it's sociology, with its facts on modern society, or the latest details on American problems.

The advantage of being a senior is that they are the only ones allowed to take U.S. Government or Psycology — the study of the human mind.

Advanced students have a chance to stimulate their minds with the advance placement (A.P.) courses. Be it A.P. U.S. History or other special programs, they can prepare themselves for the long road to college.

Social studies courses are growing increasingly more exciting every year. And with the vast changes in todays world — we too have learned to adjust to the changes.

# Discipline Through Martial Arts

**Frank Lobato's** very special interest outside of school is the Martial Arts. **Frank's** father introduced him to the arts at a very young age and ever since then he has had an aspiring interest in it.

For the last three years **Frank** has been training with **Cameron Rico** (a former student of Narbonne) and together they have both developed their own versions of the martial arts such as Judo, Akido, Karate, boxing, kickboxing, wrestling, fencing, and many others. In addition to staying in shape, **Frank** has learned discipline, confidence, and a non-violent approach towards life through the Martial Arts.

# War Games

All campus' have their cliques and hangouts. But here at Narbonne we have quite an unusual grouping of young men who indulge in war games.

They are not enemies, but comrades. They have adopted the name TRAC (Tactical Reconnaissance Assault Core) for their activities.

TRAC is headed by **Robert Pouliot,** who is the major of A company. Second in command is **Robert Theodosis** who heads B company.

The war games are held twice a week at Harbor Park with maneuvers on Saturday. Since they all plan on going into the military branches, they wear full military gear, camouflage pants, and machetti's.

**Robert Pouliot** stresses "the most important thing to have is brains." The members must be intelligent and always conscious of their surroundings.

What do you do with your spare time? We found three surfers who like to chance it on the waves during their spare time. **Patrick Freeman, George DeLaRosa,** and **Mario Loza** are three of the many "shredders" here on our campus. These guys take time out everyday to hit up the waves and are locals at Manhattan Beach. George has been surfing for two and a half years, Mario four and Pat around five years. Pat's reason for surfing is, "It feels free, relieves tension, and is relaxing." It was agreed by all three of them that R.W. twin-fin boards are the best. When asked who had the most influence on his surfing, Pat's reply was, "I would have never made it without God in my life."

## Hoffman's Grove

Do you ever wonder what our teachers do in their spare time? One of our teachers, **Mr. Hoffman,** has an avocado grove. About 5 years ago he started developing the grove with the intention that the profits would put his kids through college. Unfortunately the profit loss made his hopes impossible. But fortunately his kids are both in college without help from the avocados. Mr. Hoffman's grove is a hobby he takes much pride in.

# Getting Involved

**Mike Burns** is one of the many exceptional students here at Narbonne. For the past 9 years he has belonged to a nationwide club called the 4-H, which teaches a wide variety of skills. The area Mike has chosen to specialize in is bicycling. He participates in several 218 mile bikathons and is the winner of the State Bicycle Competitions for the 4-H

Among the many awards he has received, the one that stands out in particular is his record book award. This book has been the L.A. County regional winner and the 4-H State Competition winner.

Mike spends 10-20 hours a week on 4-H. But as he says, "I enjoy the social aspects of 4-H more than the work!"

# Standing out in the crowd

What does Narbonne have that other schools don't? Personality! Of the more than 500 seniors here at Narbonne, thirty-one were chosen as winners of the fourteen categories which ranged from the smartest to the most athletic. Choosing these winners was difficult for there were many people who could have won in any one of the categories. Unfortunately, only a few could win, but at this school everyone is a winner!

1. It's no wonder why **Dan Kamimura** won as the smartest, he seems to study all the time!

One of the highlights here at Narbonne is our sports program. Our many fine teams were the result of numerous hours of practice, both during and after school long before the season actually started. Whatever the event, we all shared a common goal with the team: To be the best!! Each week we all looked forward to at least one sport event, and whether we won or lost we always had a good time thanks to the Band, Cheerleaders, and other Pep Units. Because of our ability to meet each game with new spirit and enthusiasm, Narbonne was #1!!

## Varsity football gets tough

Varsity Football started off with a winning pre-season by defeating both San Fernando as well as Westchester High Schools. But as the season progressed, the team experienced some ups and downs. However, through all the adversities, they managed to place fourth in the Freeway League.

Among the many games played, defeating Bell was the most rewarding since it was also our Homecoming game. All in all, it was an exciting season for both players and fans.

# Feeling the thrill of victory!

## Bee football charges on

Another exciting year of Bee Football has come and gone. It didn't pass without those rare moments that football players remember all of their lives — happiness, despair, and the thrill of victory! The season was a winning one with 5 wins and 4 losses. All the games were exhilaratingly exciting. It was a year when more spirited students headed for the bleachers to cheer on the spirit of win, win, win! **Coaches Haley** and **Dossey** directed action from the sidelines as their faithful players did what they could to carry out special plans.

Hustling for victories was the name of the game, as the Gauchos smothered most opposition. Team Captain, **Roy Pascual** said, "We may not have won all our games, but we sure had fun trying."

If you're light on your feet and a fast runner, soccer is just the right sport for you. Unlike football, baseball, or basketball, soccer is a unique sport all in itself.

**Mr. Murietta,** coach of these fine, young athletes, makes sure his players get their daily practice so they can be in shape for every game. Long, exhausting hours of practice have surely paid off for these athletes.

As the years go by, more and more people are taking an interest in this fast action sport.

# Precision on the courts

Determination, spirit, and spunk are all essential to the athletes that make up the Junior Varsity basketball team. These young men played their hearts out at every game, and it certainly paid off. With a final scoreboard of seven wins and three losses, the J.V. team placed in the league. These young men are excellent athletes and we're all looking forward to their return next year. **Coach Backstrom** said that he was enthusiastically waiting for the next year when most of his players would be returning lettermen. These team members are very proud on and off the court, and are a prime example of Narbonne students at their finest. Due to their dedication, they had a strong team.

Varsity Basketball players are the cream of the crop in their sport. The fine players had integrity as well as a high respect for their Coach, **Mr. Backstrom.** It takes lots of energy, coordination, stamina, talent, and natural ability to play varsity basketball. The team got off to an excellent start and didn't let up for a second. The whole season was exciting and energetic with its own fair share of ups and downs, ending the season with a scoreboard of four wins and six losses. Coach Backstrom is very proud of his fine, young athletes and also commented on the unity which made the team become a tight-knit family.

Basketball is a very complicated and competitive sport. A person has to know what they are doing if they want to be a leader. That's why the team captains chosen for this year were **Hugo Ramirez** and **Kenny Johns.** Hugo and Kenny said, "This team was the best a basketball player could wish for."

Most of the basketball team members have one dream, and that is to someday win a scholarship by playing basketball, but also to see our Bee and Cee basketball teams playing in the city championship.

## Girls basketball gets their net's worth

Shoot it! **Coach John Zorotovich** could be heard for miles screaming for his players to "take that shot!"

In one of the more exciting seasons of Girl's basketball Narbonne has had, the girls went on to win some and lose some, but not without having a great time doing it!

The season started out quick with practice lasting 2½ strenuous hours. **Coach Zorotovich** seemed to take immense joy out of seeing his players sweat, ache, and strain to cover that last line.

Said **Sophia Billiteri,** "It was a tremendous experience, if only it could last longer . . . "

# A feature look at sports

Sports is an American institution which has enhanced our high school years and played a big part in forming our memories. Traditionally, football has made itself the center of attention in the fall semester, raising morale and activating school spirit. Other sports were important as well — especially to the dedicated players and coaches involved!

Varsity Football got the year off to an enthusiastic start by winning two of their first games — defeating both San Fernando and Westchester. Players integral to the teamwork of the Varsity Football team were **Roger Waialae,** quarterback, **John** and **Jacob Tovio,** offensive linemen, **Derwin Peterson,** linebacker, and **John Samuels,** tailback. Under the direction of **Coach Epstein,** all the Varsity Football players had a gainful experience.

Integral in the Bee Football level, was the efficiency of the players and their swift execution of plays. Team captain, **Roy Pascual,** recalls the strength and unity of the team and the unique friendships which formed because of it. Credit must also be given to **Coaches Dossey** and **Haley** for the time and genuine dedication put forth for the team.

Another sport which draws less spectators then football, but which requires exceptional stamina and coordination, is soccer. The enthusiastic players of this sport have a special drive which was reflected in their practices and energetic games. Leading forces in the 1982 soccer team were **Abel Rodriguez, Abel Guzman,** and **Gerber Guadamuz.**

A number of other sports contributed to the extra-curricular circuit on campus. Some of these include tennis, volleyball, track, cross country, swimming, gymnastics, and of course, basketball and baseball.

An interesting and highly pertinent footnote to this feature is the fact that on February 1, 1983, the Los Angelos Unified School District Board of Education put into effect its "C average" requirement for participation in all extra-curricular activities. While this ruling had effect on all clubs and organizations as well as sports, the athletic department most heavily felt the strain of this board decision which limited its players to those who could satisfy the prerequisite of earning a grade of "C" average or better in all their academic classes. Though this ruling put increased pressure on the athletics, it also provided a screening process to ensure that athletics do not overshadow education.

In conclusion, sports has and always will be a central facet at Narbonne, and with the new scholastic grading requirements, our athletes will not only be involved in enriching extra-curricular activities, but also receive a mind-building education.

## Tennis serves up a great season

The girls of Narbonne's tennis team displayed sheer devotion in the many hours of vigorous training they put in everyday to maintain their top status in competition. Under the excellent supervision of **Mrs. Peck,** who has coached the Girls tennis team for the past nine years, the team has had their share of wins and losses. The season lasted from early October until late November. All the individual members of the team contributed much to the meaning of "Team Spirit".

The entire Cross Country crew was made up of 34 excellent runners, consisting of four teams; Varsity, Junior Varsity, Sophomore, and girls.

**Mr. Filbin** was the new cross country coach, and senior runner **Dan Guy** co-coached the team. Cross country runners could most often be found training and competing at Peck Park, covering the miles of massive terrain.

# Fans in frenzy!

## Sports spectators supply the winning edge

Spectators are the unsung heroes of sports, for if there were no sports fans half the fun of athletics would be gone. A football or basketball game minus the cheering crowd can easily be cause for minus points! The philosophy rings true that playing on one's own realm creates the home court advantage.

As the basketball player, **Landon McKinney** relates, "The screaming and cheering of all the fans really fires us up on the court." One sports fan describes the atmosphere of a football game and enthusiastically says that when the tension builds and everyone in the crowd is going wild, it makes him feel as excited as if he were out there on the field himself.

# A perfect set up

Volleyball is a highly specialized sport, and through the coaching of **Mr. Parker,** and with the help of students **Nancy Tautalafua** and **Jerry Iereneo,** the girls' volleyball team was under fine direction. Hours of practice went into the refinement of their skills, and throughout the season, their dedication paid off. Increased attendance came from spectators who provided extra support to this athletic facet of Gaucho sports.

Whenever there was an athlete in need, Sports Medicine is on the alert. Advised by **Coach Bobinette,** Sports Medicine was always there to aid the athletes. Whether it's football, basketball, volleyball or any other sport, special training is involved in preparing for upcoming sports.

Sports Medicine consists of taping the athletes to provide protection throughout a game. They may also have to use gauze, ice packs, and splints, depending on the injury. Sports Medicine is also involved in restoring the athletes abilities through physical therapy. Students involved in Sports Medicine had a genuine interest in the athletes' care, and earned a valuable experience at the same time.

## Varsity and Girls track

Varsity track consisted of thirteen members who practiced everyday during 6th period to maintain agility and flexibility. Out of fifty-two events, pole vaulting was the only event that was not co-ed.

Under the strong leadership of Coaches Reisbord, Didinger, Hoppes, and Philbin, Varsity track improved with the times. When passing by, one could often find these coaches working out along side with their team. Their dedicated service surely paid off.

Running has always been a part of sports competition ever since the days of the Olympiads. Although girls have not been competing as long as the guys, girls track has gained much recognition.

Twenty-two of Narbonne's finest Gauchoettes participated on the Girls Track Team. Much time and energy was spent preparing for each meet, usually two to three hours each week day. The team's spirit was high throughout the season.

## Bee and Cee Track takes the lead

Outstanding describes our Bee and Cee Track teams. Both teams started out the season with great potential and skill. With hard work and lots of practice after school, they developed into two of the better teams in the Marine League.

The Bee team showed promising qualities this year. Everyone on the team had had previous experience, since they were basically composed of last year's former Cee members and a few returning Bees. Among the outstanding team members were sprinters **Tom Campbell** and **Mark Lee.** The team also had an excellent 440 relay team consisting of **Kevin Byrd, Joe Hawkins, Greg Washington,** and **Tom Campbell.**

Our Cee team was one of the best in the Marine League. For most of the members this was their first year in track while very few of the members were returning. Although the Cees were the smallest among all the track members, they added up to a very strong and winning team. Some of the outstanding Cees were sprinter **Marvin Johnson**, pole vaulter **Glen Roberts,** mid-distance runner **Doug Muse.**

As both **Donald Blair** of the Bees and **Marvin Johnson** of the Cees exclaimed, "We're awesome!"

## Varsity and J.V. Baseball

As the new baseball season rolled around, teams everywhere prepared for the ensuing games that rapidly approached. The Varsity team, headed by Coach Strong, was no exception, playing an average of two action-packed games a week. A first was a game which took players 100 miles all the way to San Diego. As Assistant Coach Quisumbing put it; "To be the best you've got to play the best."

Swinging for victory, the Junior Varsity Baseball team went on the field prepared to do their best. Coach Campolo did a great job of keeping the team together and many players returned the following season. As usual, the team had plenty of support from loyal fans to root on the Green and Gold. Living an American sport, the J.V.'s played an exciting fifteen games for a striking season.

## Varsity and J.V. softball

The Varsity Softball team, under the direction of **Coaches Clark** and **Tolliver,** spent many hours a day, four days a week training for the season. There were a few new players in addition to many returning members from last year's team, on the team this season. The Varsity team participated in the Torrance Tournament. During these games M.V.P.'s are picked. Both **Wendy Marple** and **Bettie King** received this title for their exhibition of superb skills in fielding, hitting, and team spirit. The Varsity team had a great season full of excitement.

Excluding the Torrance Tournament, the J.V.'s played the exact same schools as did the Varsity. They practiced after school for a total of 15 hours a week. The team was headed by co-captains **Wende Wallace** and **Michelle Milewski.** Both the time and effort, put in by the J.V.'s proved to be successful.

No matter what your interests, there was a club or organization for you. Clubs on campus did everything from serving the school, as **Jane Addams** and **Knights** did, to serving the entire community, like the **Keywanettes** and **Key Club.** Some clubs, like the **Philosophy Club,** met to discuss the topic of the day; while others worked hard toward a cause, such as the **MS Club.**

Other organizations included **Student Government,** which worked hard all year to organize activities for us; and **Student Senate,** which kept us posted on the latest school events. Also there were the **Pep Units,** which always brightened up the games with their spirit and enthusiasm.

Whatever their goal, all the clubs and organizations on campus provided us with a great way to spend some spare time and make new friends, while giving us the opportunity to serve our school, our community, and ourselves.

# Democracy on campus

## Fall and Spring Senate

Grievances, suggestions, and pertinent business regarding the school were listened to in an active forum provided by the Senate. The Senate is a branch of student government; Senate representatives held the responsibility of representing their peers through their homeroom at the Senate meetings.

One of the main events that Senate was involved in was the Human Relations Conference on Improving Communication on campus. The conference was held to increase better communication skills between Senators and their homerooms.

Student Senate played a big part in making campus democracy work.

## Varsity and bee cheerleaders

Performing for the crowds at football games and various other sports activities, were the varsity and bee cheerleading squads. They not only performed for athletic events but also for Pep Rallies, P.T.S.A., senior citizens, and for the community in the Lomita Jubilee. Their energetic cheers and routines always kept spirits high.

Behind the scenes they worked hard to achieve the good look they had. They attended camps, one at Long Beach State University called **Spirit Unlimited** with the Rams cheerleaders. At this camp they won an award called **Energizer,** which was for the most spirited squad. Another camp they attended was at Carson High called **Las Pep.** They also attended a camp at Rams Park in Anaheim called **Cheer For Excellence.** There they qualified through competition to be in a Rams pre-game show. Along with all the camps they attended, they also had practice sessions during the summer. All this work paid off, because the end result produced truly outstanding squads.

# Drill team's got the beat!

Keepin' with the beat is the name of the game for the members of Drill Team. Hours of rigorous practice are involved, mainly in the fall and winter months preparing for upcoming football games. Competition was held at Wilson High in December where Drill Team competed against area schools.

Drill Team is made up of about 53 girls. Each performance consists of routines thought up by all the girls, and are skillfully executed with enthusiasm. In recent years Drill Team and Marching Band have joined their talents, and together have performed in a number of entertaining half-times. Thanks to their sponsor, **Mrs. Thill,** Drill Team's 3 really got the beat!

# Giving spirit to the cheers

Who cheered our team on at all the football games? It was the spirited Pep Club of course! This year was something different about our Pep Club, more boys!! Boys were encouraged to join this almost all-girl club, by the sponsor **Mrs. L. Guidry.** They practiced two days a week on Tuesdays and Thursdays after school for about one hour.

They attended all football games at home and away. Their peppy uniforms consisted of Levi jeans and a gold sweatshirt with green lettering. We all appreciated the enthusiasm of Pep Club, especially the football team, so keep up the spirit!

Understanding different ethnicities and cultures on campus drew many people together through the S.A.C.S.I. club. The 4th annual Human Relations weekend conference was sponsored by the S.A.C.S.I. club, and under the direction of **Miss Carol Marcelle,** Coordinator, **Miss Debbie Rambeau, Miss Donna Hill,** and **Stella Wang,** Chairperson of the club.

The intense schedule was filled with numerous activities and discussions dealing with such topics as racism, stereotyping, sexism, and personal values. The conference was designed to increase awareness in the so named topics. Sixty students attended the conference, which was held in the Yucaipa Mountains.

The student Advisory Committee on Student Integration has also sponsored one-day conferences, and other on-campus activities to build better communications and relations at Narbonne.

## Science fiction club

Science fiction continues to eat away at the brains of scientific oriented students who thrive on Dungeons and Dragons, devour sequels to Star Wars, and just can't put down an Isaac Asimov book.

Students just can't seem to learn enough about the cosmos, spaceships and different planets. Robert Heinlein would be proud to learn of such devotion.

In an age where the world is leaning heavily on computer technology, these wiz kids will do good to shape our future.

It has been another exciting year for the chess club, with more students taking an interest in the game, the club is now stronger than ever.

Narbonne entered many tough competitions and came out victorious in a number of them.

Students must learn to think strategically if they want to be successful in the game. It is highly skilled and needs a lot of concentration.

The chess club has always been a tradition here at Narbonne, and hopefully it will continue to grow.

## Multiple Sclerosis Club

For the past ten years Narbonne has had a **Multiple Sclerosis Club** devoted to helping the M.S. patients of the **Los Angeles County Multiple Sclerosis Society.** The twenty members and their devoted sponsor Mr. Mogil spend many of their lunchtimes and weekends helping the organization by having activities for the patients. One of the activities was a Christmas party held in our multipurpose room on Sunday, December 5, where celebraties and others entertained the 150 M.S. patients and their parents. Also two of their fund raising activities were a bake sale in early January, a fashion show at the Beverly Hilton, and a bike-a-thon in mid April.

# Jane Addams serves

Jane Addams is one of the very active clubs at our school that is often taken for granted. They do a lot for our school that isn't always seen by students. The sponser of Jane Addams is Mrs. Kobayashi, who has been director for many years. This group of girls is carefully picked and are required to maintain a high grade point average.

The club was designed to serve the school in such ways as helping the counselors and students during registration, ushering during assemblies, and to assist the administration during fire drills.

## Baronettes and squires doing it all

Baronettes, a 10th and 11th grade girls service club, is both helpful in school and community functions. Some members offered their services to serve refreshments in the MPR during the Senior Parents Reception. They also had fund-raising bake sales and sold Hershey's candy bars to raise money for the Senior Citizens' Valentine Dinner. Baronettes also assisted at the Homecoming Dance. Sponsor was **Mrs. Palmquist.**

Squires, which consisted of 10th and 11th grade boys, is an honor and service organization. They are responsible for changing the outdoor sign and helping out wherever their assistance is needed. Sponsor of Squires was **Mr. Lehn.**

## Girls State & Boys State

Girls State Delegate 1982:
Stella Wang

Boys State Delegates 1982: Don Teague, Greg Washington, Randy Croyts, James Bainbridge, Steve Taylor.

Patriotism, politics, and parties were all a part of Girls State, and Boys State.

During the summer, senior **Stella Wang** had the opportunity to a once in a life-time experience: as the Girls State Delegate from Narbonne High. Stella was selected by a special committee on the basis of leadership, integrity, and citizenship. Girls State, sponsored by the American Legion Auxiliary, was held from June 27 to July 5, 1982, in our capital city, Sacramento and was officially described as "A Project in Practical Americanism and Citizenship Training." Unofficially, it was an experience to form friendships with over 500 girls from all over California. The week was organized to act as a real state governement, so the girls learned while they experienced. Stella actively participated in all aspects of Girls State, and was elected the Mayor of her city!

Boys State is similar to Girls State but is organized a little differently: approximately 5 boys from the participating high schools in California are selected for the political experience week, and there are over 1000 Boys Staters present. Like Girls State, a mock government was set up, complete with elections, law-making and county meetings.

Our Boys Staters **Don Teague, Randy Croyts, Steve Taylor, Greg Washington,** and **James Bainbridge** all got involved in the activities — from enacting legislation to being devoted cheerleaders for their political party!

# Planning for progress

## AB65/ICC

Working with a six-figure budget, the AB65 School Site Council used these specially allotted funds for school improvement. Coordinated by Mr. Osterlund, the council was made up of administrators, faculty, and student representatives. One area of the budget is spent for the Human relations weekend conference, sponsored by the S.A.C.S.I. club.

Establishing their own organization, representatives from all campus clubs meet to form the Inter-Club Council. This assembly of club representatives provided an active forum for clubs to combine their ideas.

All active Boys and Girls joined their respective Leagues which involved them in a number of aspects in regard to planning school activities. Homecoming was the main event sponsored by these groups. Girls League was in charge of the Homecoming dance, and Boys League arranged the Homecoming half-time activities.

Organizing Homecoming activities was a difficult task for both organizations — from printing Homecoming tickets to finding cars for the half-time parade!

Both Girls and Boys Leagues were very responsible and accomplished their tasks efficiently.

## The Green and Gold covered it all

We have to meet that deadline! Whether it was **Ms. Allison Rittger,** advisor, or editor **Sophia Billiteri** saying those words, it was well known to the staff that they had to hustle!

The new advisor **Ms. Allison Rittger,** instructed students that she wanted a new outlook for the paper.

As for the new look; instead of having the paper printed at the campus print shop, the Gardena Valley News did it. The stories were also written in the fifteen-word paragraph form.

Editor **Sophia Billiteri** said, "It was a hectic year. All the changes drove me crazy! I'm very proud of it though."

## Fall and spring class officers

Planning numerous school activities with hard work and diligence were the fall and spring Class Officers. They were voted by their respective class peers. The Senior Class officers were the busiest, assigned to the task of organizing all the hectic senior class activities, from the Senior Parents Reception to ordering caps and gowns. **Mrs. Just** was the Senior sponsor and worked with the senior class officers in all the intricate planning. Senior Class president **Denise Nishimura** and her officers have done more than any previous officers Narbonne has ever had, making '83 the place to be!

# Coordinating student activities

## Leadership falls into school spirit

In a time when leaders are desperately needed, it is reassuring to know that the students here have such leaders to count on. Fall Leadership, the ones in charge of it all, have done their utmost to bring about changes that will improve the morale on campus. On November 23, they went to the California Association of Directors of Activities (C.A.D.A.) Conference at Excelsior High, where they learned techniques on how to boost school spirit. During the semester, they held such spirit lifting activities as Homecoming, Victory Dance, Stampede Assembly, and numerous noon rock concerts. Because of the enthusiasm of Fall Leadership, our school has been a better place to be.

# Reaching a high note

Reaching a high "C" or harmonizing a perfect ballad, was no task for **Mr. Herman's** choir class. Heavenly tones could be heard by all passing M building. With an average of thirty students, choir performed in several assemblies, namely the Spring Concert. The choir sang a variety of music ranging from nostalgic to contemporary.

According to **Terry McCleary,** "The one song I remember was "Love Is Blue". The choir always seems to make the sounds of music perfect, by keeping the rhythm and melody flowing with ease.

# Back stage with stage crew

1

Stage crew was the bright spot among the lights, camera and action! These devoted students worked very hard to make everything click. The crew was directed by teacher **Mr. Dugas** and student manager **Pierre Hoffman.** Their help was most greatly put to use in stage productions such as the senior parents reception, talent show, and dance concerts. Through every performance, the members of stage crew had it all wired!

# The keys to happiness

"We're #1!" exclaims Key Club-er **Paul Luevano,** and there's nothing closer to the truth. At an International Key Club convention held in Chicago, our **Key Club** was named best in the **world,** a title well deserved. Among the many projects organized by the club, the paramount was the Christmas Basket Drive. This project was special for it involved the entire school as well as the community which worked together to brighten up the Christmas' of the less fortunate families in the area. Key Club was efficiently run by **Mr. Blinn.**"

Dedication is a word that typifies one of the leading clubs on campus — the **Keywanettes.** Their generous efforts have helped to serve the campus and the community alike. Some of their projects were working with autistic children and organizing such fund raisers as candy drives.

Being a Keywanette takes a lot of time and hard work, but it's a worthwhile experience. As **Mary Magnetti** puts it, "Keywanettes has helped me grow as an individual while I helped my school as well as my community." **Mrs. Woodcock** was sponsor.

# Yearbook Productions Inc., 1983

## El Eco Staff "lays out" the memories

By the end of the yearbook's production, the El Eco Staff was one, big happy family (with frazzled nerves!). Run solely by the student staff, the production of the yearbook was actually the running of a $24,000 business. Organization was the key to developing a high quality publication, and with the right elements, putting together the yearbook was as easy as ABC: action-packed production, a bright staff, and a courageous advisor! Actually, in spite of all the enthusiasm of the '83 staff, the pressures of meeting deadlines affected all the staff members, as well as **Mr. Talley!** Production of the book began with a one-week training workshop, taught by the editorial board: **Stella Wang,** Editor-in-Chief; **Diane Melancon,** Assistant Editor, and **LaRae Bacardi,** Layout Editor. To "sum" it up — 10 photographers plus 20 layout members equals a dedicated yearbook staff!

2. Defending himslef from **Carolyn Miya, Paul Luevano** gets punished for his wise cracks!

3. Pouring with perfection, photographer, **Roy Pascual** looks forward to see what develops.

# Magnet program attracts students

No matter how you divide it up, the magnet program added up to be one of the strongest math and science curriculums in the city. Magnet school offered math and science majors a chance to enrich their knowledge in these fields. Magnet also offered those students interested in journalism a chance to expand their knowledge by writing for the "Magnet School Newsletter". **Mr. Didinger,** the hard working man who kept this group functioning. Overall, magnet school was an opportunity for students to broaden their horizons. Belonging to the Magnet program gave its students involvement in a specialized course of curriculum.

Money! Money! Money! Selling Ads was one of the main ways we kept the cost of the yearbook down. Ads range in price from $5 for a Patron Ad to $350 for a full spread. This year "New Crazy Ads" offered buyers a chance to see their message in type, giving the book a more professional look.

Everyone on the yearbook staff was required to sell ads, and as they can tell you, it was no easy job. To even find a prospective buyer took many phone calls, and if the sales technique wasn't just right, a potential customer may be lost. If a deal is made, layouts must be designed and photographs taken according to the buyer's specifications.

But despite all the efforts it took to sell and produce ads, it was a major part of making a successful yearbook, and without them the price of the yearbook would be considerably higher.

★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★

Greg,

Hey my love! We made it! Now the future is ours, to do with what we want.

Thank you for being a friend — for being there when I needed you. You made my high school dayz bearable, and the nights and weekends outrageous 'n unforgettable. But most of all, thank you for being mine. I never would have made it!

Remember . . . Love, Jackie

P.S. I Love You

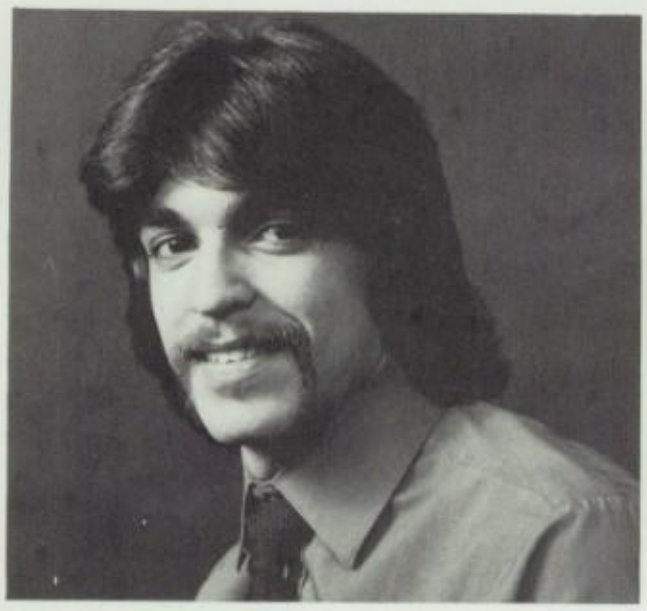
# Prom Court

## A royal night at the Queen Mary

Highlighting the Senior Assembly was the announcement of the 1983 Prom Court. The candidates were chosen after a process of nominations in which the top fifteen candidates were put on the final ballot. Out of the 30 nominees, only five boys and girls were chosen. The court consisted of **Greg Washington, Keva Copeland, Frank Lobato, Tawny Blaylock, Chris Garnica, Cecelia Escandon, Stella Wang** and **Mike Burns**

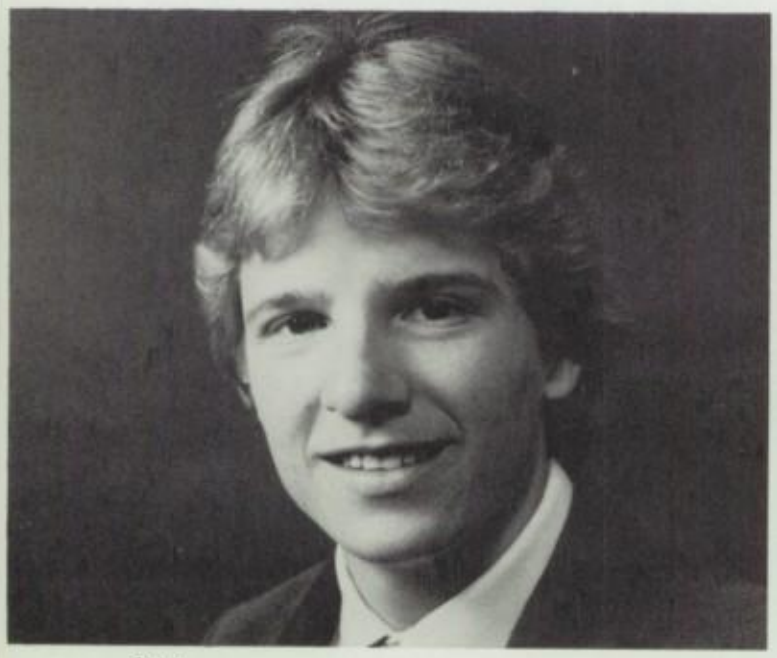
After five weeks of nervous anticipation the Prom King and Prom Queen were finally announced; On the night of April 16, at the Queen Mary, **Randy Croyts** and **Amy Jones** were crowned King and Queen.



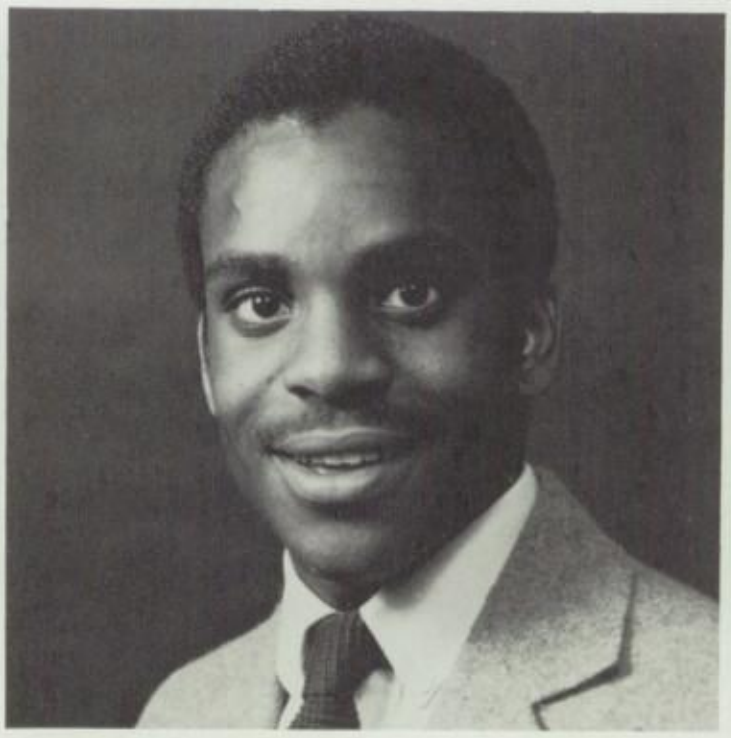
Prince Frank Lobato

King Randy Croyts

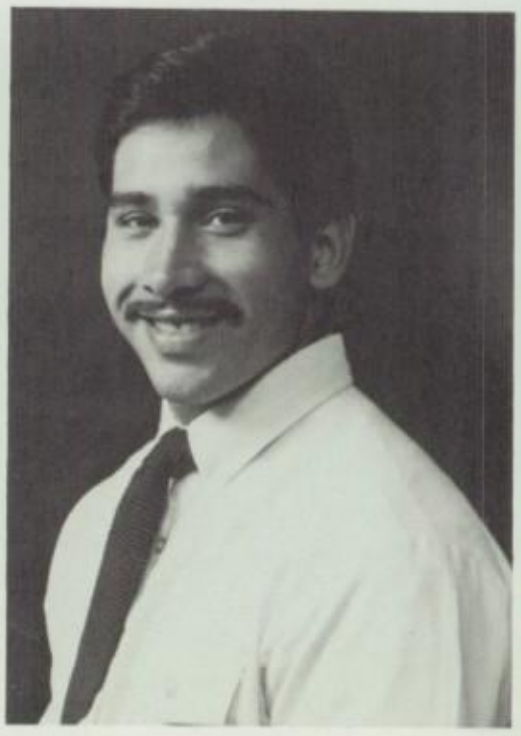
Prince Mike Burns



Prince Greg Washington



Prince Chris Garnica



Queen Amy Jones

Princess Cecelia Escandon

Princess Stella Wang

Princess Tawny Blaylock

Princess Keva Copeland

I would like to express my gratitude to everyone on the staff who was part of putting together the book, especially **Diane** and **LaRae,** Assistant Editor and Layout Editor. Our productive Photo Editor **Mary** kept the photo staff well stocked with film, and assignments, and kept them orderly which was a major development. **Don, Celine, Landon, Ilna,** and **Wendy** were among the photographers on the lively photo staff. **Jason** and **Brian** were both extremely dedicated photographers, putting in hours and hours after school. Our resident "pro" photographers were **Roy** and **Alex,** having had the most experience.

Congratulations to the layout staff for surviving the headaches they went through, from being continually "edited" to getting the run around while trying to get copy information or going through the arduous task of arranging a group picture. **Margie, Sue, Paul** and **Carolyn** deserve to be recognized for their consistently efficient layouts. Thanks to **Helen, Jackie** and **Chris** for working on the book for the first semester, and **Rita** for being Business Manager. **Sophia, Sheila, Shareena, Margie, Tracy, Michele, Lisa** and **Chris P.** all deserve credit for being full year members on the layout staff.

I would like to express my appreciation to our yearbook company representative **Rich;** especially for all the stickers! Most importantly, thanks **Mr. Talley** from myself and everyone on the staff for all your support. There are few, if any, teachers who would stay with their class at school until 3:30 in the morning working on a yearbook. (But at least we made all our deadlines!)

Not many people realize what goes into producing a yearbook — and may those who don't be fortunate enough to find out! Actually, in spite of all the hard work, we sure had a good time.

Hi Ronnie! Gosh! I never thought that this year would ever end! Well I'm making it sound all "bummed out"! That's not fair, I know! I should mention all the fun, fun times! Like J.A.!!! Yep, I just had to bring it up! After all!, it was so much fun! You want to know why I didn't sign up again? Well, it's because I wanted to give other people a chance for a good time! What's your excuse?

(con't)

Hey babe, have a super terrific summer. Maybe I'll see you around torrance or Knob Hill Beach! Call me up sometime. It would be a pleasant surprise (325-8166) to hear from you. So don't hesitate to phone me up! O.K.

friends forever

Vicki

P.S. How do you like crazy zebra print?

Ronnie

I must admit that you're right! The first place we did meet, was at that crudy dance place. If it wasn't for Edward & yourself I would have been bumed the entire night! If I can remember I wasn't quite myself that night.

By now you should of been able to tell, how the real me is? Mean and nasty! (Jusk Joking) I was kind of hoping that we could get to know one another maybe a little better. But your a pretty tough person to find these days. So thats why I rely on R Hillary, to ask you little questions. I'm a curious person you know, or should I say just down right nosy! Thats how I knew what was going on with your life without having to speak to you. (Not that I didn't want to though!)

Well I'm super glad we got to become friends & I hope by next school semester our friendship will (be kind-of) stronger! (con't) ←
